REFRIGERATED CHEF BASE

Heavy duty stainless top is insulated with ceramic fabric layer over the foam to prohibit heat transfer to interior cabinet.

Top comes with standard marine edge on all sides and has a 1" (2" overall) extension on each side to allow cooking equipment to sit flat.

Exterior cabinet construction consists of full stainless front, sides and top.

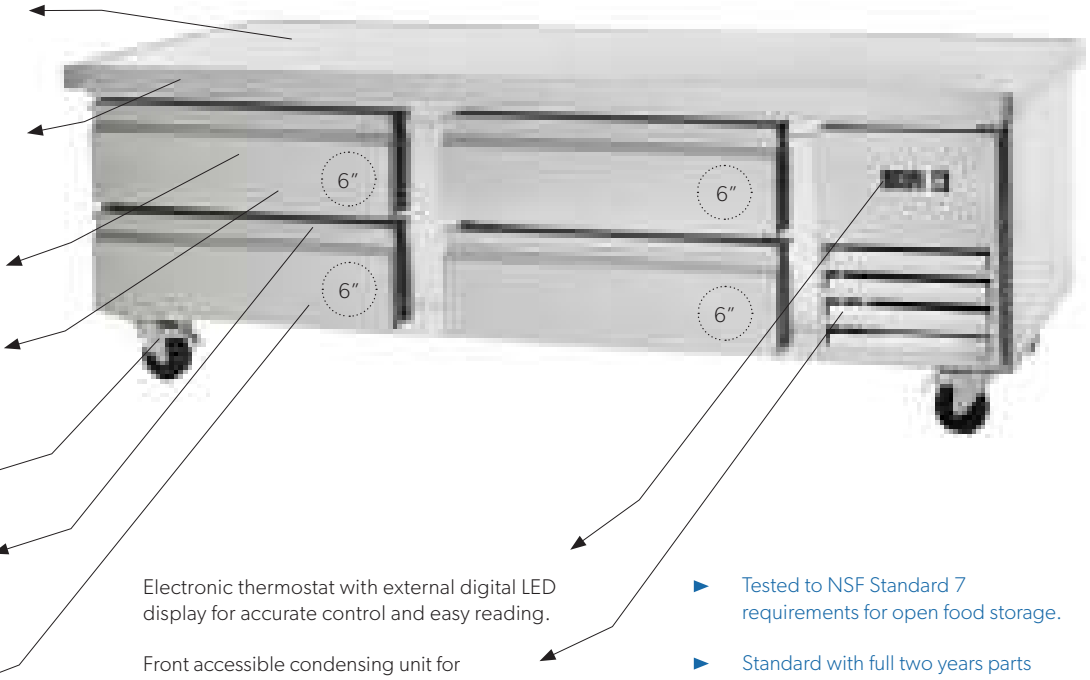

Stainless steel drawer facings, linings and frames. Top drawer holds 6" deep pans and bottom drawer holds 6" deep pans. Pans are by others.

(6) Easy to mount plate casters (three lockable) are standard with all units.

Each drawer is equipped with s/s hooked adapter bars and magnetic gaskets that are removable for cleaning.

Heavy duty Fulterer telescoping cartridge drawer system.

Full extension drawers allow for loading and unloading of pans without tipping them.

Electronic thermostat with external digital LED display for accurate control and easy reading.

Front accessible condensing unit for easy cleaning and maintenance.

Self contained capillary tube system using environmentally friendly R290 Hydrocarbon gas.

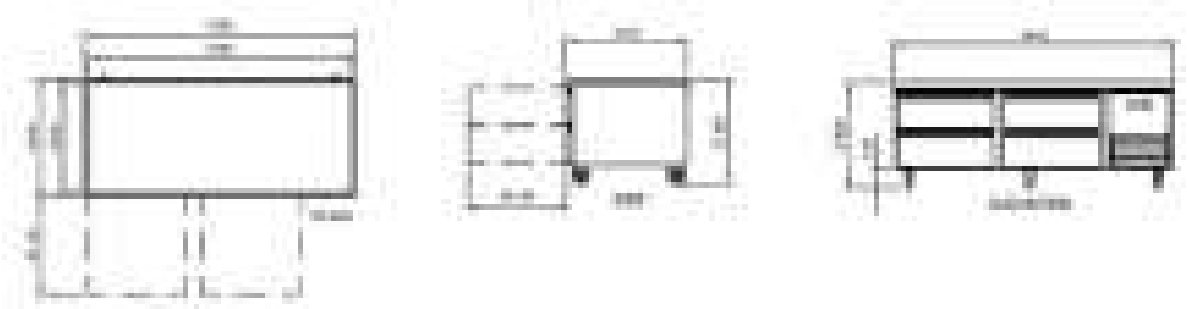

Heavy duty, reinforced mounting points.

- Tested to NSF Standard 7 requirements for open food storage.
- Standard with full two years parts and labor warranties and a five year compressor warranty.
- Recommended Heat Shield if cooktop exceeds 280 degrees to protect S/S top from warping.
